

## ABSTRACT

A semiconductive polyvinylidene fluoride resin composition comprising 100 parts by weight of a  
5 polyvinylidene fluoride resin, 0.03 to 10 parts by weight of at least one tetraalkylammonium salt selected from the group consisting of tetraalkylammonium sulfates and tetraalkylammonium sulfites, and 1 to 20 parts by weight of  
10 conductive carbon black. A formed or molded product composed of the semiconductive polyvinylidene fluoride resin composition.
